

This guide is intended to assist you with substantiating your noncash contributions and donation valuations provided by goodwill and the Salvation Army. It is important to remember that the substantiation requirements changed in 2006. Donated items were in good condition or better to be deductible. Go to www.irs.gov for more information on charitable contributions. We recommend you take pictures of your donated items, complete a worksheet for each contribution, log the date and name of the charity and have the worksheet along with the donation receipt they provide you.
